*A Monthly Bibliography for Workers with the Handicapped*

Vol. 10, No. 5

One Dollar A Year

May 1949

## ALPHA CHI OMEGA

271. MacMillan, Ellen Drake.

Cerebral palsy project. Lyre. Apr., 1949. 52:3:167-171.

Review of cerebral palsy projects of the state chapters of Alpha Chi Omega.

## AMPUTATION

See 343.

## AMPUTATION--EMPLOYMENT

272. Andreen, F. B.

Training opportunities for amputees and paraplegics. J. of Rehabilitation. Apr., 1949. 15:2:13-16.

The VA program for analysing job training requirements in the rehabilitation of amputees and paraplegics. The article is based on material contributed at a seminar on orthopedic disability areas.

## AMPUTATION--EQUIPMENT

273. Wise, Robert A.

A successful prosthesis for sacro-iliac disarticulation (hemipelvectomy). J. of Bone and Joint Surgery. Apr., 1949. 31-A:2:426-427.

Description of construction and fitting of a prosthesis for a patient with sacro-iliac disarticulation.

## AMPUTATION (CONGENITAL)

274. Pomerance, Herbert H.

Amelia; review of literature and report of case, by Herbert H. Pomerance and Hyman Soifer. J. of Pediatrics. Apr., 1949. 34:4:465-469.

"Thirteen known cases of amelia, congenital absence of all extremities, are reviewed from the literature. A brief summary of the present-day concept of production of congenital anomalies in general and amelia, more specifically, is presented."

## ARCHITECTURE

275. Selden, Willis A.

Wheelchair house. Crippled Child. Apr., 1949. 26:6:4-6.

Mrs. Foster Dudley of Burlington, Wisconsin, is a housewife confined to a wheelchair because of poliomyelitis. Since her condition presented obvious difficulties, a home was designed by a friend to meet her special household problems and to minimize her handicaps as much as possible. Description of the house and a sketch of the floor plan is given.

Issued by the Research and Legislative Service, National Society for Crippled Children and Adults, Inc.

11 South LaSalle Street

Chicago 3, Illinois

ARCHITECTURE (continued)

See also 293.

ARTHRITIS—MEDICAL TREATMENT

276. Carleton, Sara H.

International congress meets to discuss treatment of arthritis. Trained Nurse and Hospital Rev. Apr., 1949. 122:4:160-162.

It is estimated that several million Americans are afflicted with arthritis and too few receive proper medical treatment, for the average practitioner is not familiar with latest medical information concerning the condition. Management of the two commoner forms of arthritis, namely rheumatoid arthritis and osteo-arthritis, is given.

ARTHRITIS—NURSING CARE

277. Holmquist, Emily W.

The patient with atrophic arthritis. Am. J. of Nursing. May, 1949. 49:5:302-305.

The quality of nursing care given to arthritic patients is important for emotional as well as medical reasons. Author sets forth principles of good nursing and general nursing procedures that will add comfort and benefit to the patient.

BACKACHE—PHYSICAL THERAPY

278. U. S. Veterans Administration. District Office, Dallas, Texas.

Postural correctional exercises for low back pain, by E. R. Richardson and Hans Laning. Dallas, The Administration (1949) 12 p., illus. Mimeo.

Instructions and illustrations of exercises designed to strengthen abdominal muscles necessary to maintain healthy posture. Booklet is based on an extensive study made at the Dallas VA hospital.

BLIND—EMPLOYMENT—GREAT BRITAIN

279. Training the blind for open and sheltered employment. Brit. J. of Physical Medicine. Mar.-Apr., 1949. 12:2:48.

In 1948 the Ministry of Labour in Great Britain assumed full financial responsibility for the vocational training of blind persons over 21. Courses include physical and mental toning-up, instruction in braille, and other methods of work for the blind, and a vocational testing and guiding service.

CAMPING

280. Goldsmith, Cornelia.

The summer camp. J. of Pediatrics. Apr., 1949. 34:4:510-515.

Criteria for selecting a camp and drawbacks to camp life are evaluated. The handicapped child should be allowed to attend regular camps whenever feasible, and at any camp he attends, he should be made to feel independent.

CANADA. ONTARIO SOCIETY FOR CRIPPLED CHILDREN--REPORTS

281. Canada. Ontario Society for Crippled Children.

A review of activities conducted by the Ontario Society for Crippled Children, Inc., during 1948. (Toronto, The Society, 1948) 19 p., illus.

Professional care, hospitalization, government assistance, nursing services, relations with service clubs, and recreational activities are reviewed for the year.

CANCER

See also LEUKEMIA.

CANCER--PREVENTION

282. Recent progress in cancer control. Statistical Bul., Metropolitan Life Insurance Co. Mar., 1949. 30:3:1-4. Reprint.

A report on progress made in the control of cancer, research in the field, and education of the public to the problem.

CANCER--PROGRAMS--INDIANA

283. Monthly Bul., Indiana state department of health. Mar., 1949. 52:3:51-68.

Title of issue: Cancer control program in Indiana.

Contents: The volunteer wants to help, by Ann Cloetingh.-Should volunteer health agencies be united? by Rollis S. Weesner.-Support given pathologists in cancer study, by Lall G. Montgomery.-The Cancer Diagnostic Center, by Chester A. Stayton.- The expansion of professional cancer education "pro bono publico", by Don D. Bowers.- The national cancer program, by Frank M. Scott.

CANCER--STUDY UNITS AND COURSES

284. Indiana. Department of Public Instruction.

March against cancer. (Indianapolis) The Dept., 1948. 132 p., illus. (Bul. no. 184. Rev.) Bibliography: pp. 110-113.

A revised edition of a pamphlet prepared especially for secondary education. The text includes material on growth cells, cancer types, early signs of cancer, and approved methods of cancer treatment.

CEREBRAL PALSY--GREAT BRITAIN

285. Burn, J. L.

Care of children suffering from cerebral palsy. Mother and Child. Mar., 1949. 19:12:272-274.

General article on cerebral palsy mentioning briefly types of care needed and institutions in England to care for the cerebral palsied.

CEREBRAL PALSY--EQUIPMENT

See 286.

CEREBRAL PALSY--INSTITUTIONS

See 328.

CEREBRAL PALSY--INSTITUTIONS--INDIANA

286. Slominiski, Anita

Cerebral palsy clinic adds new equipment. Public Welfare in Indiana. Feb., 1949. 59:2:3.

In the same issue: Boarding home care to be available during intensive training program in cerebral palsy clinic. p. 7.

Adjustable tables, use of mirrors, English type tricycle, reciprocal motion skis, Babee Tenda and walking rails are among new equipment in use at the Cerebral Palsy Clinic maintained by the Indiana State Department of Public Welfare at Riley Hospital.

CEREBRAL PALSY--PROGRAMS

287. Whitner, Chauncey M.

Three r's for parents of cerebral palsied children. Crippled Child. Apr., 1949. 26:6:21-23.

A member of a parent's organization for the cerebral palsied discusses an ideal program for their care and rehabilitation. Concluding section of article will appear in June issue of Crippled Child.

See also 271.

#### CEREBRAL PALSY--PSYCHOLOGICAL TESTS

288. Heilman, Ann Elizabeth.

Appraisal of abilities of the cerebral palsied child. Am. J. of Mental Deficiency. Apr., 1949. 53:4:606-609.

The difficulties encountered in testing severely handicapped cerebral palsied children arise from an inability to receive a reliable response, the absence of any norm with which to interpret results, and a lack of psychological tests suited to the needs of cerebral palsied children.

#### CEREBRAL PALSY--RECREATION

289. Kinoy, Sarah Jane.

Camping for the cerebral palsied. Spastic Rev. May, 1949. 10:5:8-10, 22, 24.

Constructive answers to the questions that arise concerning the advisability, programming and sponsoring of camps for cerebral palsied children.

#### CEREBRAL PALSY--SPECIAL EDUCATION

290. Fouracre, Maurice.

When teaching the cerebral palsied, educate for everyday living. Crippled Child. Apr., 1949. 26:6:16-18, 27.

The education of cerebral palsied children should be scaled to their abilities and limitations, if it is to be of practical value. Academic education is useless as such, if it deprives the cerebral palsied of an opportunity to take his place as a useful member of society.

#### CEREBRAL PALSY--SPECIAL EDUCATION--CALIFORNIA

291. Spanne, (Mrs.) George.

A carriage house becomes a school; the story of El Portal. Crippled Child. Apr., 1949. 26:6:12-13, 30.

The conversion of an unused carriage house into a school for cerebral palsied children was brought about by the efforts of the Crippled Children's Society of San Mateo, an affiliated society of the California Society for Crippled Children.

#### CHRONIC DISEASE--PROGRAMS

292. Bluestone, E. M.

Planning for long-term illness. Med. Clinics of North America. Mar., 1949. 33:2. (11) p. Reprint.

Current trends and influence in medical care, future pattern of medical care, the hospital of the future, and rehabilitation as the final goal form the basis of article.

#### CHRONIC DISEASE--PROGRAMS--OKLAHOMA

See 346.

#### CLINICS--DESIGNS AND PLANS

293. Johnson, Arthur R.

(Headquarters and) Crippled Children's Clinic (of the St. Louis Society for Crippled Children) Clayton, Missouri, The Architect (1949) 2 leaves. Photo prints. Architectural drawings.

#### CLUB FOOT--MEDICAL TREATMENT

294. Thomson, Stuart A.

The treatment of congenital club-foot; nine years' experience with a modification of the Denis Browne method and splint. J. of Bone and Joint Surgery. Apr., 1949. 31-A:431-434.

"During the past nine years, 260 cases of idiopathic equinevarus deformities have been treated with the Denis Browne splint. We continue to be highly pleased with this method and, by and large, we obtain uniformly good results."

#### CONGENITAL DEFECT--ETIOLOGY

295. Greenberg, Morris and others.

The effect of smallpox vaccination during pregnancy on the incidence of congenital malformations, by Morris Greenberg ( and others). Pediatrics. Apr., 1949. 3:4:456-467.

Among 5 million people vaccinated for viriola in New York City in 1947, there were about 4,000 women in the first months of pregnancy. By means of a control group and comparison of statistics for previous years, it was found that there was no evidence to substantiate the theory that vaccination of pregnant women increased tendency toward congenital defects in offspring.

#### CROSS EYES

296. O'Rourke, Donald H.

Crossed eyes - eye exercises. Crippled Child. Apr., 1949. 26:6:19-20, 30.

Parents of children with cross eyes, particularly cerebral palsied children, should not neglect providing adequate and early medical treatment for their child, if he is to regain normally functioning eyes.

#### DRIVERS

297. Lampos, C. J.

Can you wiggle your fingers? Hygeia. May, 1949. 77:5:316-317, 346, 348-349.

An account of the persistance of a polio victim in learning to drive and the difficulties he encountered. The mechanical attachments necessary for his driving are mentioned, but no details are given on construction, etc.

#### EMPLOYMENT (INDUSTRIAL)--PROGRAMS--VIRGINIA

298. Gwaltney, Milton N.

Bristol builds a climax for NEPH week. Employment Security Rev. Apr., 1949. 16:4:26-28.

Unemployment Compensation Committee, Richmond, Va.

The granting of the American Legion Award to the Universal Moulded Products Corp., in Bristol, Va., marked a three year anniversary of the program sponsored by both the company and city to provide employment for the handicapped.

#### EPILEPSY--EMPLOYMENT--TEXAS

299. Otto, John L.

Vocational rehabilitation of epileptics in Texas. Am. J. of Psychiatry. Dec., 1948. 105:6:417-419. Reprint.

Study made by John Sealy Hospital and the State Board of Vocational Rehabilitation to determine the employability of epileptics and to provide suitable training if necessary. Of 42 patients recommended for employment by a vocational counselor only 8 were found unemployable. After seizures were brought under control, 17 required no training; rehabilitation plans were made for 12. Program confirms fact that epileptics can be rehabilitated with proper medical and vocational care.

#### EPILEPSY--SPECIAL EDUCATION

300. (International Council on Exceptional Children. Special Committee on Epilepsy.)

"Education for all American Children," do we really mean it? (Chicago, The Council, 1949) (7) p., illus. Free.

Joint publication of the Council and the American Epilepsy League.

Proposal for an educational and medical program for the epileptic child, so that he, too, may have equal opportunity in our democratic society.

#### FUND RAISING

See 349.

#### HEART DISEASE--INSTITUTIONS--GREAT BRITAIN

301. Price, R. Kemball.

Long-term cardiac observations of children. British Med. J. Mar..26, 1949. 4603:515-519.

In the same issue: Children's cardiac clinics; an editorial. p. 534.

Description of a children's cardiac clinic and a report on its first 200 cases. It is suggested that adequate means of examining children with suspected heart conditions would eliminate erroneous diagnosis and needless hospitalization.

#### HIP--DISLOCATION

302. Badgley, Carl E.

Etiology of congenital dislocation of the hip. J. of Bone and Joint Surgery. Apr., 1949. 31-A:2:341-356.

Mechanical factors, genetic study, principles of development, embryological sections, and environmental theory are discussed in the investigation of the etiology of dislocation of the hip.

#### HOSPITALS--DESIGNS AND PLANS

303. American Institute of Architects. Department of Education and Research.

The hospital building....comp. and ed. by Walter A. Taylor. (Washington, The Institute, c1948) 71 p. \$2.00. Bibliography: pp. 60-71.

Comprising the 1947 A.I.A. Convention seminar addresses on hospitals, and the Building type reference guide no. 2, reprinted from the Bulletin of the American Institute of Architects, May, 1947 and January, 1948.

"Because of repeated demands, a comprehensive bibliography for these lectures and the complete lectures themselves have been collected by the Department of Education and Research of the American Institute of Architects. This material, together with additional data from the Bulletin of the A.I.A. is here made available in compact form under one cover, so that not only the architectural profession but other interested organizations and individuals may benefit from its use."

#### INSURANCE (DISABILITY)

304. Strow, Carl W.

Provision for permanent disability. Chicago, Research Council for Economic Security, 1948. 11 p. (Pub. no. 32)

Article treats problem, causes of disability, foreign systems, permanent aid under federal old-age insurance, state systems, outline of a good state plan and principles necessary for an effective program.

#### LEUKEMIA

305. Dale, John H.

Leucemia in childhood; a clinical and roentgenographic study of seventy-two cases. J. of Pediatrics. Apr., 1949. 34:4:421-432.

An analysis of the findings indicate that Roentgen examination of the skeletal system is a valuable aid in diagnosis and such examinations of the knee joint can provide a helpful screening test in suspected cases.

#### MENTAL DISEASES--EMPLOYMENT

306. Burling, Temple.

Vocational rehabilitation of state hospital patients; a preliminary report of a study in Connecticut. Am. J. of Occupational Therapy. Mar.-Apr., 1949. 3:2: 69-72, 87.

Study of vocational rehabilitation of the mentally handicapped and particularly of how rehabilitation services may be made available to patients discharged or paroled from mental hospitals. Report confined largely to the work in Connecticut.

MENTAL DEFECTIVES--EMPLOYMENT

307. DiMichael, Salvatore G.

Employment of the mentally retarded. J. of Rehabilitation. Apr., 1949. 15: 2:3-7.

In same issue: Yepsen, Lloyd N. Subnormal minds are abler than you think. p. 8-12.

A study of the employability of the mentally retarded. Emphasizes need of changing old attitudes concerning the subnormal and realizing that there are certain types of jobs the retarded can perform adequately.

308. Workshop in job requirements in occupational areas of New York City. Am. J. of Mental Deficiency. Apr., 1949. 53:4:621-643.

Report of a workshop in New York City for teachers of mentally retarded students which was held to acquaint them with the vocational requirements of various types of employment. The aims and approach of the program are outlined. Contains charts giving types of work, training and personnel requirements of specific industries.

MENTAL DEFECTIVES--SPECIAL EDUCATION

309. Birch, Jack W.

The public school approach to mental deficiency. Am. J. of Mental Deficiency. Apr., 1949. 53:4:572-576.

A review of the manner in which mental deficiency is handled in the Pittsburgh public school system. Type of education offered to educable group and procedures followed in cases of uneducability are given.

310. Parotte, Irene.

Modern trends in education for the educable mentally handicapped. Am. J. of Mental Deficiency. Apr., 1949. 53:4:558-561.

The method of instruction of the educable mentally retarded must be suited to their learning capacity and vocational opportunities in later life. The program in use at the Lincoln State School, Lincoln, Illinois, is described briefly.

MOTOR ABILITY TESTS

See 347.

MULTIPLE SCLEROSIS

311. Schwenkenberg, Arthur J.

Multiple sclerosis; general considerations. Medical Times. Mar., 1949. 77:3: 126-132, 137. Reprint.

A summary of the clinical types and symptoms of the disease. Diagnosis, treatment and numerous case histories are given.

See also 337.

MULTIPLE SCLEROSIS--MEDICAL TREATMENT

312. Scheinker, I. Mark.

Recent advances in research and treatment of multiple sclerosis. Ohio State Med. J. Jan., 1949. 45:1:27-30. Reprint.

A resume of three new trends in research and several therapeutic measures used in the treatment of multiple sclerosis which have evolved within the last decade. Personal observations of the author are given.

MUSCULAR DYSTROPHY--EQUIPMENT

313. Young, Paul Thomas.

Mechanical aids for patients with muscular disability. J. of Bone and Joint Surgery. Apr., 1949. 31-A:2:428-430.

Description of stepping stick canes and self-rising chairs as mechanical aids for cases with retarded or impaired muscular development.

## MYOSITIS

See 318.

## NURSERY SCHOOLS--INDIANA

314. Paxton, Mary.

Pre-school training for handicapped children. Public Welfare in Indiana. Feb., 1949. 59:2:8-9.

Stresses need for pre-school centers to facilitate adjustment to school situation for severely handicapped students. The part the Indiana Society for Crippled Children and Adults and its affiliated county chapters have played in organizing such centers is described.

## ORTHOPEDICS

See 348.

## PARALYSIS AGITANS

315. Management of Parkinsonism. Lancet. Apr. 2, 1949. 256:6553:572-573.

Review of current trends in medical treatment and use of drugs in Parkinsonism. Stresses need to avoid over-optimism toward new claims of cures.

## PARALYSIS AGITANS--MEDICAL TREATMENT

316. Duff, R. S.

Use of diparcol in Parkinsonism. Brit. Med. J. Apr. 9, 1949. 4605:613-615.

Resume of clinical findings in eight cases of Parkinsonism at the Southey General Hospital in Glasgow. The use of this drug has been found to be advantageous and recommendations are made as to dosage and course of treatment.

## PARAPLEGIA

317. Abramson, Daniel J.

Spondylitis, pathological ossification and calcification associated with spinal-cord injury, by Daniel J. Abramson and Samuel Kamberg. J. of Bone and Joint Surgery. Apr., 1949. 31-A:2:275-283.

"This paper emphasizes a phase of abnormal bone and joint physiology, a spondylitis similar in many respects to the rheumatoid type, with frequent involvement of the diarthrodial joints. The relationship of these changes to spinal cord injury prompted this study."

318. Miller, Leo Frederick.

Myositis ossificans in paraplegics, by Leo Frederick Miller and Colman J. O'Neill. J. of Bone and Joint Surgery. Apr., 1949. 31-A:2:283-294.

A case history of myositis ossificans in a paraplegic, together with a review of the literature on the subject.

## PARENT EDUCATION

319. Baker, Adelaide Nichols.

Behind the "miracle"; parent and child must make the most of their resources. Crippled Child. Apr., 1949. 26:6:10-11, 30.

The importance of the role of parents of handicapped children in the ultimate rehabilitation of their children is evaluated by a parent of a handicapped child. Meeting difficulties and limitations with courage and determination is the dual responsibility of parent and child, but it is the parent who must lead the way toward healthy adjustment.

## PHYSICAL MEDICINE

320. (American Medical Association)

(A panel discussion on Physical medicine in general practice in the Session on physical medicine, Session on miscellaneous topics at the ninety-seventh annual session of the American Medical Association, Chicago, June 24, 1948). J. Am. Med. Assn. Apr. 16, 1949. 139:16:1053-1064.

## PHYSICAL MEDICINE (continued)

Contents: Physical treatment of poliomyelitis, by Robert L. Bennet.-Physical treatment of backache, by Frederic J. Kottke.-Physical treatment of common disorders of the feet, by Frances Baker.-Physical treatment of peripheral vascular disease, by Sedgwick Mead.

## POLIOMYELITIS--MEDICAL TREATMENT

321. Hauser, Emil D. W.

Anterior poliomyelitis; rehabilitation by functional exercises. Physical Therapy Rev. Apr., 1949. 29:4:149-153.

The use of functional exercises in the treatment of poliomyelitis has proven to be very helpful. Exercises can be started early and gradually increased, since they provide for the general development of muscle fibers.

## POLIOMYELITIS--MENTAL HYGEINE

322. Young, Richard H.

The patient's attitude toward poliomyelitis. Mental Hygeine. Apr., 1949. 33: 2:262-270.

Report of a study made of 17 adults who were questioned about their attitude toward their illness one year after the initial attack. Results indicate that at the time of illness patients were concerned very little about their condition. There was some indication, however, of maladjustment following recovery.

## POLIOMYELITIS--PSYCHOLOGICAL TESTS

323. Phillips, E. Lakin.

Intelligence and personality factors associated with poliomyelitis among school age children, by E. Lakin Phillips, Isabel R. Berman and Harold B. Hanson. Washington, D. C., Society for Research in Child Development, 1948. 60 p., tables. (Monographs of the Society, v. 12, no. 2. Serial no. 45) \$2.00. Bibliography: pp. 49-52.

Results of an investigation by means of psychological testing to determine the emotional and intellectual effects of polio on the school-age child.

## POSTAL SERVICE--LEGISLATION

324. U. S. Congress. Senate. Committee on Post Office and Civil Service.

A statement on U. S. Senate Bill 1103 "A Bill to readjust postal rates" presented ... April 22, 1949. Chicago, The National Society for Crippled Children and Adults (1949) (6) p.

Official statement delivered before the Senate Committee by Philip G. Rettig, Director of Research and Legislative Services, National Society for Crippled Children and Adults. Defeat of the measure, or exemption of philanthropic agencies is sought, since any additional mailing expense would lead to curtailment of necessary services provided for the handicapped. Free from the Society.

## PSYCHOLOGY

325. Rusk, Howard A.

"...but the Spirit giveth life." Survey. Apr., 1949. 85:4:212-215, 238.

A discussion of the emotional impact of disability upon the physically disabled and the need for tolerance and patience on the part of society and the disabled alike. Article is an adaptation of a chapter from the forthcoming book "New Hope for the Handicapped," by Dr. Rusk and Eugene J. Taylor, published by Harper Brothers, \$3.00.

## REHABILITATION

326. Stewart, Marcus J.

Aspects of physical reconditioning. J. of Bone and Joint Surgery. Apr., 1949. 31-A:2:394-399.

The importance of remedial exercises following orthopedic injury or disease is discussed. Military, industrial and general rehabilitation programs are mentioned briefly.

#### REHABILITATION CENTERS--MISSOURI

327. Shepherd, Vivian.

The Rehabilitation Institute of Kansas City. J. of Rehabilitation. Apr., 1949. 15:2:24-28.

Staff, treatment and training, equipment, financing and beneficiaries of the Institute are discussed. The Institute is an excellent illustration of what can be done for the handicapped by interested and cooperating agencies.

#### REHABILITATION CENTERS--DESIGNS AND PLANS

328. Botek, Jean.

Preliminary steps in the setting up of a new treatment unit. Am. J. of Occupational Therapy. Mar.-Apr., 1949. 3:2:73-77.

Needs, resources and basic factors to consider in setting up a treatment center.

#### Rh FACTOR

329. Wiener, Alexander S.

Preventive aspects of Rh incompatibility. Health News., New York Dept. of Health. Mar., 1949. 26:3:9-14.

A thorough, somewhat technical review of the Rh blood factor. The author is one of the two who discovered the Rh factor in 1937. He described progress made in the last decade.

#### RHEUMATIC FEVER--MEDICAL TREATMENT

330. Ash, Rachel.

Rheumatic fever in childhood; fifteen to twenty years: follow-up caution against early ambulant therapy. Am. J. of Diseases of Children. July, 1948. 76:1:46-52.

A study of 331 children fifteen years after illness and a study of 150 children twenty years after onset of illness. Findings indicate that rest is of paramount importance in early and convalescent stages of the disease.

#### SCARLET FEVER

331. Sweet, Lewis K.

Acute serous meningitis and encephalitis complicating scarlet fever. Pediatrics. Apr., 1949. 3:4:442-455.

Report of findings in 24 cases of acute serous meningitis and one of acute encephalitis in patients with scarlet fever. The clinical features that distinguish each of the conditions are outlined.

#### SCHOOL HYGIENE

332. Public Health Nursing. Apr., 1949. 41:4:179-218.

Title of issue: School issue.

Contents: Nurse-teacher in a school health program, by William E. Ayling and Eva F. Johnson.-Team work for the young child, by Elizabeth Gordon Fox.-Nursing in college health programs, by Raidie Poole.-Demonstration of a modern school health program, by Jennie McMaster.-Institute on camp nursing, by Gyla Brooks.-Relationship of the school nurse-teacher to other teachers, by Cora M. Wilder.-Two in-service training programs for teachers.-A city district, by Gladys E. Jorgensen. In a district health unit, by Irene Woods.

#### SOCIAL SERVICE--FINANCE

See 349.

#### SPECIAL EDUCATION--KENTUCKY

333. Kentucky. Department of Education.

A state plan for the education of exceptional children. Educational Bul., Kentucky State Board of Education. Dec., 1948. 16:10:713-757.

"This bulletin has been prepared for the use of local school administrators in developing and supervising special education facilities for exceptional children who are physically or mentally handicapped. It includes a copy of the 1948 Act

SPECIAL EDUCATION--KENTUCKY (continued)

for the Education of Handicapped Children and a statement of policies and standards as adopted, September 17, 1948, by the State Board of Education."

SPECIAL EDUCATION--MAINE

334. Maine. State Department of Education, Augusta.

The classroom teacher helps the handicapped child. Augusta, The Dept., 1948. 36 p. Free.

"The following bulletin suggests ways of detecting children who are entitled to the services of the division. The various agencies that assist in the work are listed. Chapters are included on the crippled child, the child with impaired hearing, the child with visual handicaps and the one with speech defects."

SPECIAL EDUCATION--OREGON

335. Oregon. State Department of Education, Salem.

Special education; your question answered. (Salem, The Dept., 1948) (24) p. Mimeo.

Pamphlet designed to inform school personnel and parents with the nature of the Department's work and the facilities available to help the handicapped child. Appendix lists Oregon state laws concerning the education of handicapped children.

336. Oregon. State Department of Education, Salem.

Third biennial report of the program for the education of handicapped children as provided for by Chapter 480, Oregon Laws 1941 and amended in 1943 and 1945, to the Forty-Fifth Legislative Assembly. (Salem, The Dept., 1949) 34 p., tables. Mimeo.

Description of program between 1947-1949, proposed budget for 1949-1951 and recommendations for a more adequate program.

SPINAL INJURIES

337. Bucy, Paul C.

The stimulation of multiple sclerosis and other degenerative diseases of the spinal cord by herniation of cervical intervertebral discs. Cincinnati J. of Medicine. Jan., 1949. 30:16-18. Reprint.

Emphasizes need of early diagnosis if the patient is to be spared severe disability, or if surgical treatment is to be successful or beneficial.

STATE SERVICES--ALASKA

338. Alaska. Crippled Children's Division, Juneau.

Alaska's crippled children. (Juneau, The Div., 1949) (15) p., illus.

Brief, illustrated account of facilities available to the crippled children of Alaska. The need for improved and enlarged services is stressed, since the present program is equipped to help only one out of seven crippled children.

STATE SOCIETIES--MISSOURI--ST. LOUIS SOCIETY

See 293.

STATE SOCIETIES--NORTH CAROLINA

339. The North Carolina League for Crippled Children. Health Bul., North Carolina State Board of Health. Feb., 1949. 64:2:3-10.

A resume of the League's work with crippled children. Includes statistics on handicapped persons and children with cerebral palsy in the United States.

SWIMMING

340. Lowman, Charles LeRoy.

Do's and don't's for instructors; swimming is healthy, but....Crippled Child. Apr., 1949. 26:6:7-9, 29.

Consideration for swimming instructors in planning a program of activities for various types of children, whether handicapped or non-handicapped.

TUBERCULOSIS--EMPLOYMENT--GREAT BRITAIN

341. Grenville-Mathews, R.

Reablement of tuberculosis patients. Lancet. Apr. 2, 1949. 256:6553:563-565.

Description of work being done at the Wallasey Resettlement Clinic in England toward rehabilitating and securing employment for patients with pulmonary tuberculosis.

TUBERCULOSIS--MEDICAL TREATMENT

342. Bosworth, David M.

Tuberculosis of the spine; an analysis of cases treated surgically, by David M. Bosworth and Jack Levine. J. of Bone and Joint Surgery. Apr., 1949. 31-A:2:267-274.

"This study is based upon 177 consecutive cases of Pott's disease, treated surgically at Sea View Hospital during the six year period from 1940 to 1945 inclusive. Its primary purpose was to examine the factors affecting the hospital mortality rate in this condition."

343. Chandler, Fremont A.

Amputation for discrepancy of limb length in tuberculosis of the hip, by Fremont A. Chandler and Theodore A. Fox. J. of Bone and Joint Surgery. Apr., 1949. 31-A:2:420-425. Reprint.

A case history of a patient with tuberculosis of the hip. The method of treatment described and advocated includes fusion of knee joint, amputation of the deformed extremity, and fitting with proper prosthesis. Author feels excellent results in this case warrants consideration of method in instances of deformed or withered extremities.

VETERANS (DISABLED)--EMPLOYMENT

344. Wainright, Jonathan.

Out of human bondage. Crippled Child. Apr., 1949. 26:6:14-15, 30.

"A distinguished disabled veteran urges unified action for the handicapped."

VOCATIONAL GUIDANCE

345. Lerner, Ruth S.

Rehabilitation at Hunter College. J. of Exceptional Children. Apr., 1949. 15:7:199-202, 217.

The Bureau of Educational and Vocational Guidance at Hunter College has undertaken a program designed to provide vocational counseling and placement service to its ever-increasing number of physically handicapped students. This service is maintained in cooperation with five private and state agencies interested in the disabled.

WALKING--EQUIPMENT

NEW BOOKS IN THE LOAN LIBRARY

CHRONIC DISEASES--PROGRAMS--OKLAHOMA

346. Oklahoma. State Department of Health, Oklahoma.

The care of chronic and convalescent patients in Oklahoma, by Leonard Logan. Oklahoma City, The Dept., 1948. 228 p., tables. Mimeo.

A cooperative study of the State Dept. of Health and the Institute of Community Development, University of Oklahoma. Bibliography: pp. 222-228.

CHRONIC DISEASES--PROGRAMS--OKLAHOMA (continued)

A factual and tabulated presentation of the problem of chronic and convalescent patients in Oklahoma and the social and economic factors relating to the problem. Report makes no claim at completeness, but stresses the fact that the state is conscious of the problem and is making a strong attempt to remedy the situation.

FUND RAISING

See 349.

MOTOR ABILITY TESTS

347. Sloan, William.

The Lincoln adaptation of the Oseretsky tests; a measure of motor proficiency. Lincoln, Ill., The Author, 1948. 68 p. Mimeo.

"The primary purpose (of this study) is to offer a form of the test which may find some common acceptance by users of the test and lead to the collection of data which may be comparable, so that eventually some standardization can be achieved."

ORTHOPEDICS

348. U. S. Veterans Administration. Department of Medicine and Surgery.

Basic sciences for orthopedics ... comp. by Sid John Shafer under the general supervision of Edward L. Compere and the Department of Orthopedic Surgery, Northwestern University Medical School. Washington, U. S. Govt. Print. Off. (1948) 206 p. \$1.25. Bibliography: pp. 189-200.

A compilation of the material currently used in a basic science course in Orthopedic Surgery at Northwestern University Medical School. Presented in compendium rather than lecture form, the book contains complete information on the subject. Specifically for the medical student or doctor.

SOCIAL SERVICE--FINANCE

349. Leavitt, Robert Keith.

Common sense about fund raising. New York (American Book-Stratford Press, Inc.) 1949. 75 p.

The controversial issue of federated fund raising has advanced supposedly forceful and compelling arguments in its favor. To determine the authenticity of such claims, the National Foundation for Infantile Paralysis commissioned a reliable consumer research agency to gather opinions from industry, business, welfare organizations, and the public in general concerning the question.

The author, in turn, was given the task of interpreting the findings of data collected from the survey. The result is a cogent support of independent fund raising. The book should be of paramount interest to all those interested in the voluntary health and welfare movement.

Copies may be secured at \$2.00 each from the Donnelley Corporation, 305 East 45th Street, New York, New York. Special prices for quantity orders.

## BULLETIN ON CURRENT LITERATURE

The publications listed in this issue have been received by the library of the National Society for Crippled Children and Adults and are available for loan. The library does not stock copies for sale. Prices are listed, when known, so that orders may be addressed directly to the publishers. The publications are listed by author and title under the subject heading by which the item is cataloged and filed in the library. The subject headings in the Bulletin can be identified by being in all-capital letters.

Because the library may have only a limited number of copies of any item listed, and because of the great number of requests frequently received, it is suggested that the resources of local libraries be investigated first. The services of the library are extended to organizations and individuals whose local resources are so limited as to make information otherwise unavailable. It is understood that the borrower agrees to pay shipping charges for sending him the loan material and for returning it to the library.

### THE NATIONAL SOCIETY FOR CRIPPLED CHILDREN AND ADULTS Officers and Executive Committee 1949

Dr. John J. Lee, <i>Michigan</i> .....	President
William H. Jaenicke, <i>California</i> .....	President-Elect

Gerard M. Ungaro, <i>Illinois</i> .....	Treasurer
Lawrence J. Linck, <i>Illinois</i> .....	Secretary
Miss Louise Baker <i>Arizona</i>	Raymond J. Knoepfel <i>New York</i>
Mrs. Jack Carnes <i>Arkansas</i>	Dr. George A. Selke <i>Montana</i>
Paul Dietrich <i>California</i>	Roscoe L. Thomas <i>Texas</i>
Davis Geiger <i>Kentucky</i>	Parker Trowbridge <i>Massachusetts</i>

A nationwide organization with headquarters in Chicago and more than 2,000 member state and local societies for the crippled and handicapped throughout the country.

The Society's many projects and services are directed and supervised by professionally trained specialists. Services include health, welfare, education, rehabilitation, recreation, recruitment and training of specialized personnel, and employment for all types of handicapped persons.

All services are established and carried out in a manner to supplement and extend and not to duplicate or compete with the services of any other agency, public or private. The National Society is supported by the annual sale of Easter Seals.
